github.com/MohammedSalman999

Summary

Focused and humble full-stack developer with hands-on experience in backend development, API design, and database systems. Passionate about building efficient, scalable, and real-world solutions. Strong foundation in Golang with growing expertise in modern web stacks like Remix and Node.js. Constant learner — one bug, one project, one commit at a time.

Skills

Backend: Golang, Node.js

Database: MySQL, MongoDB, Prisma

Programming Languages: Golang, JavaScript, TypeScript (learning)

Frontend: React.js, Remix

Tools & Others: Git, Zustand, Postman, Clerk, ShadCN, Figma

Experience

BSNL, Jabalpur   **On-Site**
Broadband Technician   *2021 – 2023*
- Managed broadband and FTTH (Fiber-to-the-Home) services.
- Installed and maintained networking equipment for high-speed internet.
- Troubleshot and optimized internet connections for better performance.

GuruKrupa Placement and Education Solutions Pvt. Ltd   **Remote**
Platform Migration Intern   *Jan 2024 – Mar 2024*
- Migrated legacy education platform to a modern web stack.
- Refactored backend APIs in Node.js for better performance.
- Implemented authentication and secure state management.

Aegis I-Net Private Limited   **Remote**
Full Stack Developer Intern   *Oct 2024 - Dec 2024*
- Developed and optimized full-stack apps using React and Node.js.
- Integrated APIs, database systems, and user authentication.
- Used Zustand for efficient state management.

Projects

The Build Mall – E-commerce Platform   *jan 2025 - Present*
○ Built using Remix, Prisma (MongoDB), Zustand, and Clerk authentication.
○ Custom Figma-based design with full responsiveness.
○ **GitHub:** github.com/MohammedSalman999/The-Build-Mall

Afford Motors Employee System   *Feb 2025*
○ Task management app built with Remix, Prisma, MongoDB.
○ Role-based actions (Admin, Moderator, Employee) and Excel report generation.
○ **GitHub:** github.com/MohammedSalman999/affordmotors

Admin React Dashboard   *2024*
○ Full-featured admin panel with React and Node.js.
○ Client-side rendering with efficient state management using Zustand.
○ Charts, dark mode toggle, user role handling.
○ **GitHub:** github.com/MohammedSalman999/adminReactDashboard

Silsila – Reservation Platform   *2024*
○ Golang-based room booking application with Bootstrap frontend.
○ JWT and OAuth2 login with full reservation and admin management flow.
○ **GitHub:** github.com/MohammedSalman999/Silsila-The-Dream

RMS – Recruitment Management System   *2024*
○ Golang + MySQL backend with JWT authentication.
○ Resume parsing and separate applicant/admin modules.
○ **GitHub:** github.com/MohammedSalman999/rmsUsinggolang

Car Management System (Golang)   *2024*
○ RESTful API backend developed using Golang and MySQL.
○ Car booking functionality with authentication and admin control panels.
○ **GitHub:** github.com/MohammedSalman999/CarManagementSytem

Education

Vindhya Institute of Technology and Science   **Jabalpur, Madhya Pradesh, India**
B.E. in Mechanical Engineering   *2021*
○ Learned systems thinking and structural design.
○ Hands-on experience with machinery and workshop practices.
○ Developed strong problem-solving skills leading to programming passion.
